8 February 1979

Kenneth C. Bass, Esq.
Office of Legal Counsel
Department of Justice
Washington, D.C. 20530

Dear Ken:

Pursuant to our conversation last Friday, I have revised our draft procedures for Sections 2-203, 2-204-5, and 2-206 of Executive Order 12036 and copies of those revised drafts are enclosed. You will find them modified from those sent under cover of our letter dated 3 January 1979 in two respects. First, I have made the changes we discussed Friday and, second, I have conformed them as closely as possible to the language we are proposing for the electronic surveillance procedures.

You will also find a copy of our proposed procedures for Section 2-202 enclosed.

As we mentioned in our 3 January letter, I anticipate that the formal internal coordination and approval here will require two to three weeks. As we discussed, I will not begin that process until I have your final comments. Accordingly, in order to get these procedures before the Attorney General at the earliest possible date in accordance with his 16 November letter, I would ask for your earliest review.

Sincerely,

Assistant General Counsel
